

Tokyo Institute of Technology

Answer to the Ultimate Question of Life, the Universe, and Everything

by

Taro SHURON

Supervisor:

Prof. Katsunori YAMAOKA

A Thesis Presented to

Department of Information and Communications Engineering
School of Engineering

In Partial Fulfilment of
the Requirements for the Degree of

Master of Engineering

January 2020

Abstract

The main contribution of this thesis is summarized as follows: achievement of my happy graduation.

Acknowledgement

I would like to express the most in-depth appreciation to my supervisor Prof. Katsunori Yamaoka and Prof. Yoshiaki Kitaguchi. Special thanks to Mrs. Matsuzaki and all the members of Yamaoka-Kitaguchi Laboratory for all the fun, help, and support. Finally, I am indebted to my family members for their full and unconditional support for all these years.

--------------------------	---

List of Tables

Chapter 1

Introduction

Figure 1.1: Kawaii.

Chapter 2

Related Work

Yamaoka et al. proposed a novel routing algorithm based on game theory [1].

Chapter 3

System Model and Problem Statement

Chapter 4

Proposed Method

Chapter 5

Performance Evaluation

Chapter 6

Conclusion and Future Work
